

Hello! Congratulations on your matriculation.

Momi House is one of the two dormitories (Momi House and Maple House) newly built in the spring of 2017. Momi and Maple Houses are connected on the first floor, where there are a number of seminar rooms, a living/dining room, and washitsu (a Japanese-style tatami room). Though these facilities are open for all ICU students, residents of Momi and Maple Houses have the advantage of easier access as they are just below our living spaces. When new students come in spring and autumn, we hold a variety of welcome events there such as an information session on course registration and a barbeque party.

Dorm life is fun and teaches you a lot of things. Experiences in any of ICU Dormitories will surely be an essential part of your student life. We hope to see you in Momi House soon!

【2nd Floor】

Momi 2nd floor is the only boy's floor that has 26 undergraduate students. The most selling point on this floor is respecting each other. We basically esteem one's characteristics and behavior unless he/she breaks a rule. Therefore, our floormates act freely as they like. Everyone interested in ICU Dorms, why don't you be a part of us, and makeup culture and yourself?

【3rd Floor】

Momi 3rd floor is a friendly floor that is both welcoming and accommodating to all students regardless of their background. With 30 students ranging from freshmen to seniors, we have a lot of activities all members can partake in! For example, we have Movie Night every weekend or throw nabe parties once in a while! Please come join us and let's all have fun together! :)

【4th Floor】

Members of Momi4 are group of people who are relaxed and usually like to do things at our own paces. We are not too close or too distant, but you would always hear laughs from somewhere, at the kitchen, living room or our own rooms, whenever people gather.

【5th Floor】

There are a lot of unique members who love singing and dancing in the 5th floor. We often cook, study, watch TV, go to the big bath together like a family. Everyone is cooperative and helping each other to make a dorm life peaceful. Looking forward to see you in the 5th floor!

【6th Floor】

I like momi 6th floor. The following, I am going to tell you why I like momi 6th floor.

First, the location. The 6th floor. It is the farthest floor from the ground among dorm floors on which undergraduate students can live -as far from the earth as one can get. In the afternoons, about sunset, we can see the beautiful sky and view which photographs cannot capture. It is luxurious.

Next, gender-free. On this floor, we live together on the same floor without care about sex or gender identity. It is diversity. It is not “diversity” which society parades only on just word. We can get much stimulation. Of course, it does not always go well. We also have conflicts. However, I think experiences through the conflicts are very precious, even if we get frustration through it.

Then, single rooms. Almost all of the rooms on this floor are single rooms. Thus, on this floor, we can get the time not only when we have conversations with stimulation but also when we think in silent or spend time with our personal hobby.

Additionally, we have BBQ and initiation as dorm events and watching films and takoyaki-party as floor events.

We spend dorm life studying with a friend till late at night or talking with a friend in the bath like hot spring. When I enter dorm life, I feel every day is like school excursion.

Why don't you spend your precious college life on mom 6th floor with us?

【7th Floor】

The Momi 7th Floor is exclusively for Graduate students. We are from all around the world and have different backgrounds, so you will be able to experience variety of cultures. We sometime hold parties where you can eat the food around the world. Because our floor is the highest floor in the all dorms, you can see the beautiful Mount Fuji from the kitchen when the sky is clear! We look forward to spending time with you!

Momi House

2nd floor Yoshinao Higuchi

3rd floor Yukako Watanabe

4th floor Hozumi Matsumoto

5th floor Nao Suzuki

6th floor Tsukasa Togoe

7th floor Lau, Sai Kiet Niki
