ADMISSIONS

ADMISSIONS POLICY

Founded on the principles of the Universal Declaration of Human Rights, ICU aims to cultivate “responsible global citizens” who will contribute to world peace and to help people from diverse backgrounds live together harmoniously. ICU has been a pioneer in liberal arts education in Japan since its founding in 1953, pursuing, as its name suggests, international, Christian, and academic missions. In order to realize this vision and meet challenges in the rapidly changing global community, ICU seeks students from Japan and the world possessing the following qualities:

- Intellectual curiosity and creativity that transcend disciplinary boundaries
- Sound judgment based on powers of logical, critical thinking
- Global communication skills necessary for dialogue with people from different cultural and linguistic backgrounds
- Self-motivated individuals who identify, solve, and engage real world problems

Our goal is to admit, irrespective of nationality, students who have studied a wide range of subjects with the core competencies to integrate basic knowledge and foreign language skills for doing liberal arts.

ICU offers a variety of admissions and assessment procedures in order to enroll students who seek to change both themselves and the world.

UNIVERSAL ADMISSIONS

The first president of ICU, Hachiro Yuasa, was fond of saying that there are no foreigners at ICU. At ICU, all students study together in the same classrooms, where some of the classes are taught in English, some in Japanese. As a result, ICU admissions procedures are different from most other institutions in Japan. Since the university does not expect applicants (as distinguished from our graduates) to be proficient in both Japanese and English, there are different application procedures for students educated within the Japanese educational system and for students educated outside this system.

With Universal Admissions, ICU is seeking students who have studied in various places around the world and who possess diverse backgrounds. This admissions system accommodates different language backgrounds and learning experiences, so that you can select the application method that is most appropriate for you. Through this system, we will work together to find the path that best enables you to make use of all of your rich experiences.

Universal Admissions conducted in English

-April / September Admissions by Documentary Screening

ICU seeks to admit students irrespective of nationality who can strive academically and personally at ICU, in line with its goal to cultivate responsible global citizens. Applicants for April/September Admissions by Documentary Screening undergo a documentary screening process in English, including the submission of standardized test scores, such as SAT, ACT, or IB. Admissions are based on holistic criteria with the goal to identify students who are able to perform at a superior level in a liberal arts environment. Moreover, coming from diverse educational and cultural backgrounds, students are expected to enrich the ICU student body with different and innovative ways in which to meet the challenges of the new global age.

Applicants who apply to ICU through April/September Admissions by Documentary Screening are those who should be able to take college level courses taught in English. Students entering through these means **must complete the Japanese Language Programs (JLP) as part of their Graduation Requirements.**

Universal Admissions conducted in Japanese

-April Admissions for Returnees

-April Admissions for International Students by Documentary Screening / Interview (EJU required)

-September Admissions for International Students by Documentary Screening (EJU required)

DOCUMENTARY SCREENING

The admissions process is subject to ICU admissions policies and regulations, based on Japanese national educational requirements.

All application documents are important to enable the Admissions Decision Committee to screen applicants in a fair and accurate manner, and omission of any one of the required documents may adversely affect the chances of admission. In particular, official high school transcripts and certified standardized test results are indispensable, as the Admissions Decision Committee screens applicants as fairly and as rigorously as students who enter on the basis of other types of admission examinations.

- Application documents will not be returned. If your certificate or diploma is the only copy and cannot be reissued, ask your school to prepare a certified copy enclosed in a sealed envelope and signed across the flap. If this arrangement cannot be made for some reason, please consult the Admissions Center (admissions-center@icu.ac.jp) in advance.
- If the name used for your school documents such as transcripts and test scores, is different from the official name on your application form, please ask your school to prepare a letter of clarification and submit it with a copy of your passport.

FINANCIAL AID AND SCHOLARSHIPS

Financing a college education is a major consideration for most students and families. Since payment of matriculation/admission fees, tuition, and all living expenses are the entering student's responsibility, we urge you to take into account all of the financial aspects of your study in Japan at the time you apply to ICU. For a summary of estimated expenses, please refer to pp. 22-23.

ICU has broad categories of financial aid and scholarships: A) financial support students can apply for together with application for admission to ICU, and B) financial support offered to students who submit application after being enrolled at the university.

Please note that students entering ICU as One-Year-Regular or *Kenkyūsei* are not eligible for ICU financial aid or scholarships. Also note that long term student loans are only available for Japanese citizens and foreign residents who possess permanent/long-term resident status.

SUMMER COURSES IN JAPANESE

Summer Courses in Japanese (SCJ) is an intensive six-week program with more than 40 years' history. Starting in early July, it provides a stimulating environment in which students can increase their understanding of the Japanese language and culture. About 100 students from 20 or so countries/regions participate in the SCJ every summer. There are 7 levels for <Japanese as a Foreign Language> and one course for <Japanese as a First/Heritage Language>. In addition to the program's 15 weekly periods of intensive Japanese language instruction, the SCJ also offers cultural programs. In content, method and rigor, the SCJ courses are equivalent to ICU regular term courses. At the end of the courses, five units of academic credit will be granted, which can be counted toward your ICU graduation requirements.

<Applicable to September applicants only>

- Those who wish to participate in Summer Courses in Japanese before September matriculation should submit the SCJ application together with application documents for September Admissions by Documentary Screening by the following deadlines.

First Application Period: Jan. 29 (Wed), 2020

Second Application Period: Mar.12 (Thu), 2020

JAPAN ENTRY PROCEDURES

Applicants who have passed the documentary screening will be informed of the URL for Entrance Procedures Website. Detailed information about the entrance procedures documents and Japan entry procedures will be available on this website. Most of the procedures for entering the University, including remittance of matriculation/admission fees, are to be completed by the following dates;

<For **April** Applicant> **First** Application Period: **October 25, 2019**
Second Application Period: **February 6, 2020**

<For **September** Applicant> **June 1, 2020**

However, prospective non-Japanese students applying from abroad should be aware early on of the requirements for entry into Japan as a student. The essentials are outlined here.

Student Visa

All non-Japanese students, except those who are Auditors, are basically required to have the “Student (*Ryūgaku*)” visa.

There is a special procedure for obtaining the Student visa most expeditiously, the details of which are included in the Entrance Procedures Website. As an essential part of the procedures to obtain the Student visa, the University, on behalf of the student, initiates the visa application by applying to the Japanese government for the official document, “Certificate of Eligibility for Status of Residence (*Zairyū Shikaku Nintei Shōmeisho*) CoE”. After receipt of the CoE, the University sends it to the student, who in turn presents it at the nearest Japanese consulate for the Student visa, which is usually issued within a week. The deadline for visa related application is as follows.

<For **April** Applicants> **First** Application Period: **October 25, 2019**
Second Application Period: **December 10, 2019***

<For **September** Applicants>

For those who attend the Summer Courses in Japanese: **April 30, 2020***

Other than above: **May 11, 2020***

*NOTE: This date is different from the submission deadline of other entrance procedures documents.

These deadlines are shortly after the notification date, and some required documents may take several weeks to prepare. In order to succeed in smooth procedure, please prepare the following documents well in advance.

● Passport

Prospective students from abroad should obtain the information necessary for applying for a passport from the appropriate office of their own government. Passports are issued for a designated period of time, which varies from country to country, and each passport has a specific expiration date. One's passport must be valid at all times while living in Japan. We recommend that you have a passport by the time you apply for ICU.

Referential Document for Financial Resources

Those who apply for a student visa must present the proof that they have enough funds to cover all expected living expenses during their study to the Japanese Government (excluding Tuition/Facilities fee while studying at ICU). You are required to provide ICU with concrete proof of available financial resources. This is a particularly important factor when the Ministry of Justice examines your financial stability as part of its visa procedures for authorizing your Certificate of Eligibility (CoE).

The minimum amount is 100,000JPY per month, in other words, the amount of the balance must exceed 1,200,000JPY (100,000JPY×12 months).

Please refer to ICU official website (<https://www.icu.ac.jp/en/>) or pp.22-23 for getting an idea of the approximate annual amount needed for studying at ICU.

Financial supporting documents should be provided in one of the following forms (Copies are NOT acceptable). Please see the below samples. Currency on referential documents may be other than JPY or USD if it is difficult to obtain such documentation.

- An original letter on official bank letterhead showing your or sponsor's name as an account holder and the amount of funds available, with bank's official stamp or as signature of a bank official. The stamp and signature must be original.
- A recent bank statement showing your or sponsor's name as an account holder and the amount of funds available, with bank's official stamp or a signature of a bank official. The stamp and signature must be original.
- An original letter on official sponsoring organization's letterhead, including your name, the amount of the award available to you, and the period when you will be eligible to receive the funds, with organization's official stamp or a signature from the sponsor. The stamp and signature must be original.
